SUMMARY

Someone with a passion for building smart, user-friendly tech solutions. I enjoy solving problems, learning new tools, and pushing creative ideas—especially when working on projects that make a real difference.

EXPERIENCE

L1 Developer

TravelXp

June 2026 - Present, Mumbai, MH

- Developing and maintaining scalable backend services for **FoodXp**, enabling reliable handling of food-related content and user interactions across multiple modules.
- Expanded beyond individual services, building batch processing pipelines, streamlining **CMS workflows**, driving performance optimizations, and developing **B2C APIs** that solve real business and user problems—not just endpoints that fulfill requirements.

Software Developer Trainee

TravelXp

December 2025 - May 2026, Mumbai, MH

- Integrating **AI-driven features** to personalize user experience, improving content relevance and reducing average user search time.
- Designing and optimizing **RESTful APIs** and backend performance, ensuring reliable frontend-backend communication and faster response times.

Backend Developer Intern

TravelXp

September 2025 - November 2025, Mumbai

- Collaborated with the development team to design and optimize RESTful APIs using **Node.js**, improving backend performance and reliability.
- Managed and structured data using **MongoDB**, while testing and debugging APIs with **Postman** to ensure stable and consistent endpoint behavior.
- Worked with **GitHub** for version control, code reviews, and team collaboration, gaining hands-on experience in building real-world backend systems.

PROJECT

BioQR - File Sharing using Biometrics and QR Codes

[bioqr-demo.vercel.app/](#) • December 2024 - Present

- Implemented **biometric authentication** and **QR-based sharing** with **time-limited tokens** for secure file access across multiple user flows.
- Strengthened system security using **JWT authentication** bcrypt encryption, and **structured database design**, securing user accounts, file data, and sessions across authentication, file management, QR generation, and access control modules.

WanderCraft - Travel Itinerary Planner

[travel-itinerary-demo-rosyvercel.app/](#) • February 2025 - March 2025

- Developed a user-friendly **Travel Itinerary Planner** web application using **Java Servlet/JSP**, **MySQL**, and a responsive frontend built with **HTML5**, **CSS3**, and **Bootstrap**.
- Implemented user authentication and personalized features, enabling users to explore curated destinations, and save or update favorite places and activities for future visits.

SKILLS

TECHNICAL SKILLS:

- Languages – Java, C, C++
- Frontend Technologies – HTML5, CSS3, JavaScript (ES6+), Bootstrap
- Backend Technologies – Node.js
- Frameworks – Express.js, Next.js, Hono.js, Hibernate, Spring Boot
- Machine Learning – Supervised Learning, Unsupervised Learning
- Libraries – React.js, jQuery
- Databases / OS – MongoDB, MySQL, Ubuntu, Windows
- Tools – Postman, Git, GitHub, Overleaf

SOFT SKILLS:

- Critical Thinking, Problem-Solving, Effective Communication

EDUCATION

Bachelor of Engineering

Konkan Gyanpeeth College Of Engineering • Karjat, MH • 2026
